

TJ SERIES DUAL UNDER SINK FILTRATION

The Alpine TJ Series dual undersink water purifier features a high capacity sediment reduction cartridge with a premium grade carbon block cartridge to provide clean, fresh tasting water at a fraction of the cost of bottled water.

The Alpine TJ Series dual undersink water purifier is ideal for higher sediment loadings or for the larger family whilst still utilising minimal space under the kitchen sink.

ALPINE DUTJ-43 SYSTEM INCLUDES:

- ▶ Filter heads and bracket
- ▶ Compact filter cartridges
- ▶ Plumbing fittings and tubing
- ▶ Watermarked chrome brass pressure limiting antihammer back flow prevention valve
- ▶ Shut off valve
- ▶ Inlet and outlet tubing
- ▶ Stylish chrome monitored faucet
- ▶ Mounting screws

FILTRATION BENEFITS

Sediment, dirt, rust, silt

Chlorine, chloramines,
Offensive tastes and odours

Giardia, Cryptosporidium,
Selected volatile organic compounds down to 0.5 micron

SYSTEM BENEFITS

Stylish chrome monitored faucet – alerts you when cartridge is due to be changed

Hygienic quick change cartridge – as easy to change as a light bulb

Compact space saving dual cartridges for extra sediment reduction

High purity water at a fraction of the cost of bottled water
